Calvary's funding today, and the opportunities ahead

A pro bono look at Calvary Women's Services' public and private funding, built from public records, for discussion with leadership and the board.

Prepared with public data as of 2026-10-10

Calvary
Women's Services

Ending homelessness. Inspiring hope.
Transforming lives.

Calvary has become a system-level provider whose funding needs a better shape and a deeper cushion, not a smaller share.

Situation: Calvary has built a stronger organization, funded mostly by public partners.

- Revenue up 59% after inflation FY19→FY25; 124 beds across three housing programs, its 94 transitional beds 6.8% of DC's
- Public funding is about half of revenue (53% FY22–24), typical for DC peers (11th of 19)

Complication: the money arrives in a concentrated shape, private support has held flat, and FY25 ended in deficit.

- Three public streams carry a $4.1M award base, 78% of it through TCP; the DHS contract is the largest and least documented
- Foundation grants steady at ~$1M a year, one partner 27%; FY25: −$607K and 4.4 months of cash, while event receipts held near $0.5M
- Calvary recognized about two-thirds of its known award ceilings in FY24–25, and the audited years show the gap began in the CoC stream

Resolution: draw every awarded dollar, grow private support alongside the public base, and hold a reserve.

- A 90-day plan on four fronts with nine Tier 1 targets: deepen GWCF, Cafritz, Abell and Fowler, an introduction to Schattner, and the TCP contracts
- Target: private revenue from ~$2.1M to ~$3M in three years, a six-month reserve, and workforce / behavioral-health formalization
- What we need from you: reactions, the FY24–25 audits and the TCP agreements

Source: all modules M1–M10; figures carry chart IDs on the slides that follow
Method: Situation–Complication–Resolution; bold lines are the argument, bullets the evidence
Chart m1_01, m2_01, m2_07, m7_00 · data as of 2026-10-10

Calvary Women's Services
Ending homelessness. Inspiring hope. Transforming lives.

In five years Calvary has grown revenue 59% in real terms and its housing inventory to 124 beds.

+59%

Revenue growth after inflation FY19 → FY25 ($2.49M → $4.97M nominal; $3.05M → $4.84M in 2024 dollars)

124 beds

Transitional, permanent supportive and rapid-rehousing beds in 2025, up from 68 in 2022; its 94 transitional beds are 6.8% of DC's (2.5% in 2022)

3 streams

Public partners: DC OVSJG, HUD Continuum of Care via TCP, DC DHS via TCP

50 funders

Foundations and donor-advised sponsors with filed grants to Calvary, TY2020–24

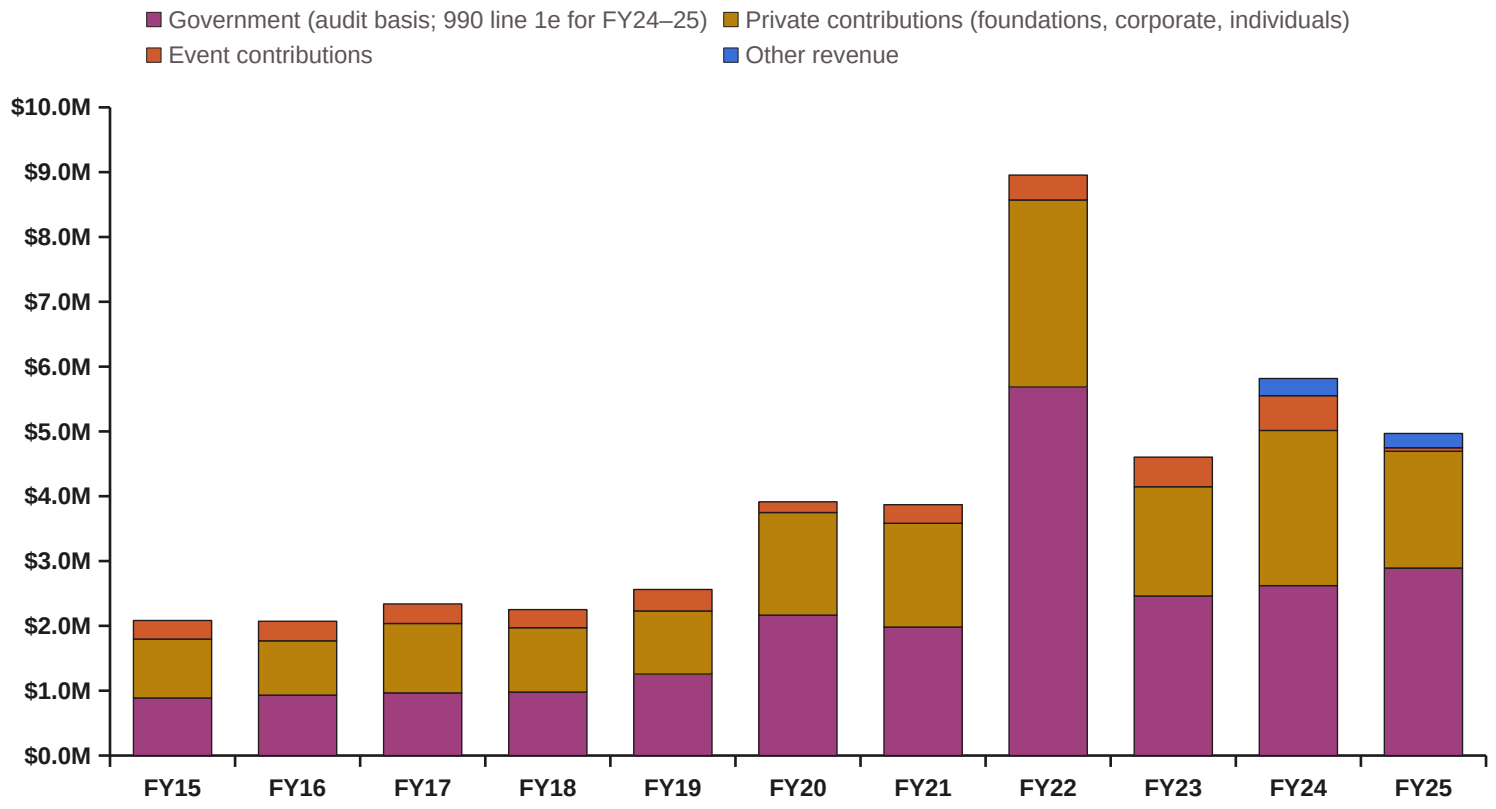

Calvary did this while serving the two wards with the deepest need in the city: Ward 8's poverty rate is 31% against 15% citywide, and a third of renters in Wards 7 and 8 pay more than half their income in rent.

Implication: *the case for Calvary to funders is strong and quantified, and the question is how to fund the next five years as well as the last five.*

Source: IRS Form 990 returns FY2011–FY2025 (GivingTuesday / ProPublica / IRS SOI) in fact_org_financials; HUD Housing Inventory Count 2022–2025 in supp_hic_projects; ACS 2020–24 by ward in dim_geo
Method: revenue deflated with CPI-U to 2024 dollars; beds = HIC total_beds for Calvary projects
Chart m1_01, m9_03, m9_01 · data as of 2026-10-10 · method note A1

Calvary Women's Services
Ending homelessness. Inspiring hope. Transforming lives.

Public partners funded most of that growth and now provide about half of revenue, typical for DC peers.

What the chart says

The share is typical.

- Government ran 40–61% every year since FY15; 53% on average for FY22–24.
- 11th of 19 DC-area organizations; 57th percentile among DC human-services organizations that report government revenue.

Growth came with it.

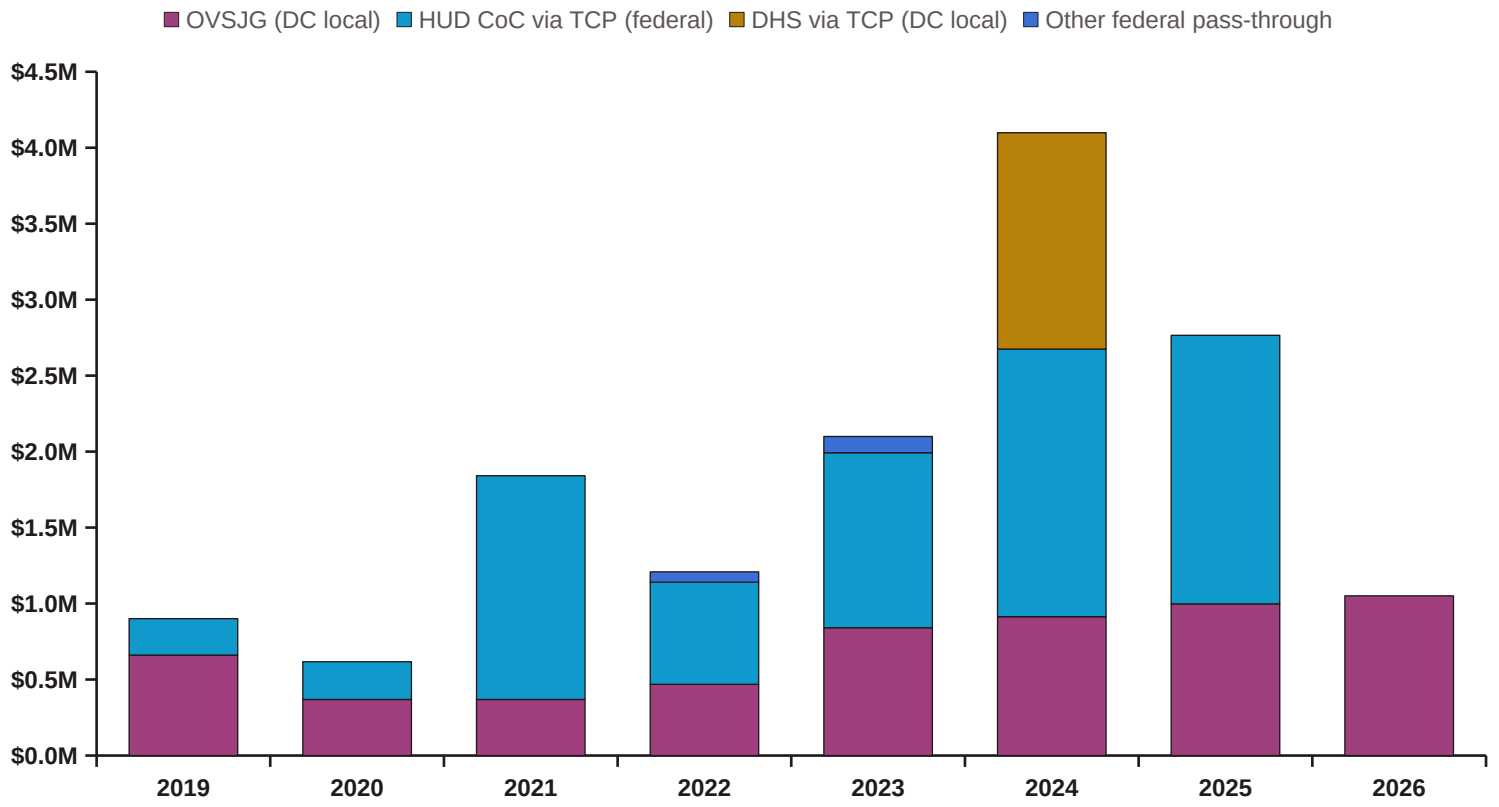

- The FY22 spike was a one-time $3.68M award to buy the New Foundations building.

Implication: *the share itself is not the problem to solve, and the shape of the public money and the private base are.*

Source: Calvary audited financial statements FY15–FY23 (government revenue) and IRS 990 returns, fact_org_financials
Method: government share = audited government contracts and grants ÷ audited revenue; 990 line 1e ÷ 990 revenue for FY24–25; FY25 gala receipts sit in other revenue (line 8a, net)
Chart m1_02, m3_07 · data as of 2026-10-10 · method note A1

Calvary Women's Services
Ending homelessness. Inspiring hope. Transforming lives.

The question is the shape of the public money, since three streams, two through one intermediary, carry $4.1M a year.

Three channels, one hub

TCP carries 78% of the 2024 base.

- HUD CoC via TCP: $0.24M (2019) → $1.77M (FY2025), three projects.
- DHS via TCP: $1.42M in FY2024 (transitional housing $830K, Sisters Rise $593K); other years not public.

OVSJG is direct and growing.

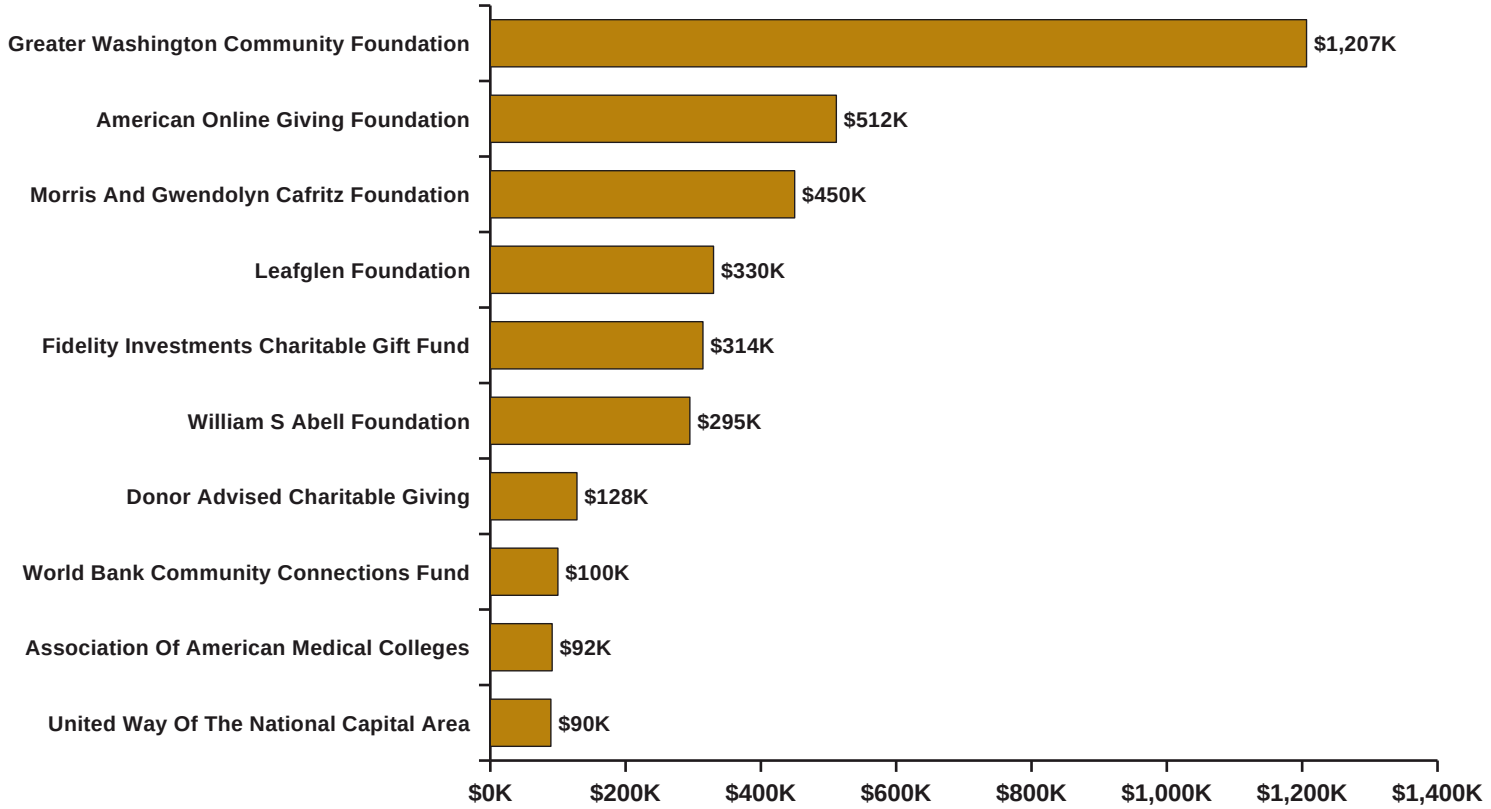

- $0.37M (FY20) → $1.05M (FY26), two transitional-housing grants.

Implication: *the relationship with TCP matters as much as any single program, and the DHS contract is the stream to document first.*

Source: DC OVSJG award lists FY2019–2026; HUD CoC award lists (TCP as applicant); DC Council oversight responses FY2024; Calvary single audits — fact_gov_awards
Method: one source per stream, never summed across sources; OVSJG and DHS by DC fiscal year, CoC by competition year; one-time awards excluded
Chart m2_01 · data as of 2026-10-10 · method note A2

Calvary Women's Services
Ending homelessness. Inspiring hope. Transforming lives.

Private support has held steady near $1M a year in grants, with one partner providing more than a quarter.

Steady, and concentrated

$0.64–1.17M a year from 26–29 funders.

- Grants named in funders' own filings, TY2020–24.

One partner is 27%; the top five are 63%.

- GWCF, including the time-limited Health Equity Fund.
- Donor-advised sponsors add $1.1M over five years ($0.95M from Benevity, Fidelity and Schwab): individual donors' money.

Implication: *the Health Equity Fund's finite life makes a successor conversation with GWCF timely, and the base needs more names and deeper grants.*

Source: Funders' IRS 990-PF and Schedule I filings TY2020–24 naming Calvary (GivingTuesday / IRS e-file), fact_grants and dim_funder
Method: non-cumulative rows, aggregated by funder EIN; TY2024 filings partly released
Chart m1_07, m1_08 · data as of 2026-10-10 · method note A3

Calvary Women's Services
Ending homelessness. Inspiring hope. Transforming lives.

After a strong FY24, FY25 brought a $607K deficit and 4.4 months of cash, while event receipts held near $0.5M.

–$607K

FY25 operating result (revenue $4.97M, expenses $5.58M); FY24 was +$507K

$596K → $533K

Event receipts FY24 → FY25 (990 lines 1c + 8a); the FY25 return reported the gala on line 8a, not as contributions

4.4 months

Cash and savings ÷ monthly expenses at FY25 year-end, down from 7.5 months in FY21

These are clouds on the horizon rather than a verdict on the year: FY24 was unusually strong, and the gala held steady (the 2025 gala fell inside FY25 and the 2026 gala raised over $620K). They do mean there is little room to absorb a public-funding shock.

Implication: *the plan that follows starts with cash and draw-down, because a thin cushion turns a survivable cut into a crisis.*

Source: IRS 990 returns FY2021–FY2025, fact_org_financials; Calvary gala announcements (2025, 2026)
Method: months of cash = cash_savings_eoy ÷ (total_expenses ÷ 12); event receipts = line 1c event contributions + line 8a gross fundraising-event income

Calvary Women's Services
Ending homelessness. Inspiring hope. Transforming lives.

The clouds on the horizon

DC's budgets have held, the Council has restored every proposed cut, and the real risk sits in one channel.

DC's budgets behind Calvary's local funding have held through FY2027, but a cut is proposed every spring.

Since pandemic money ended in FY2023, DC's homeless and victim-services budgets have held flat to rising through FY2027, with cuts proposed each spring

Source: supp_dc_budget_lines (DC budget books FY2024-FY2027, Council committee reports). Data as of 2026-10-10. Chart m2_04_dc_budget_context.

Stable pools, annual threat

OVSJG Victim Services grants are flat at $55M.

- $45.5M (FY24) → $55.9M (FY25) → $55.4M (FY26) → $55.3M (FY27) approved.
- Mayor proposed −$5.8M (FY26) and −$5.6M (FY27); the Council restored both, though the FY27 restoration is mostly one-time ($5.1M of $5.6M).

DHS homeless services rose.

- $170M (FY24) → $206M (FY26) → $194M (FY27); actual OVSJG spending runs 9–14% under approved.

Implication: *the local risk is annual and political, which an advocacy calendar can manage, and it is not a structural decline.*

Source: DC budget books FY2024–FY2027 (OCFO Schedule 30-PBB, agency chapters) and Council committee reports — supp_dc_budget_lines, fact_policy_events
Method: activity-level totals by program code; approved vs actual vs Mayor's proposal
Chart m2_04, m2_06 · data as of 2026-10-10 · method note A6

Calvary Women's Services
Ending homelessness. Inspiring hope. Transforming lives.

Calvary can absorb the headline cuts, but losing the DHS contract through TCP is the cloud to plan for.

Scenario (FY25 baseline)	Revenue loss	% of revenue	Deficit (gross)	Months of cash after a year (net)
Baseline FY25 (actual)	–	–	−$607K	3.1
OVSJG grants cut 10%	−$67K to −$100K	1–2%	−$675K to −$707K	3.0–3.1
OVSJG grants cut 25%	−$168K to −$250K	3–5%	−$776K to −$857K	2.9–3.0
HUD CoC renewals cut 15%	−$99K to −$207K	2–4%	−$707K to −$814K	2.9–3.0
One CoC project lost (New Foundations 2)	−$204K to −$424K	4–9%	−$811K to −$1,032K	2.7–2.9
DHS/TCP contract not renewed	**−$650K to −$1,125K**	**13–23%**	**−$1,257K to −$1,733K**	**1.9–2.4**
Combined (OVSJG -25%, CoC -15%, DHS lost)	**−$1,052K to −$1,474K**	**21–30%**	**−$1,659K to −$2,082K**	**1.5–2.0**

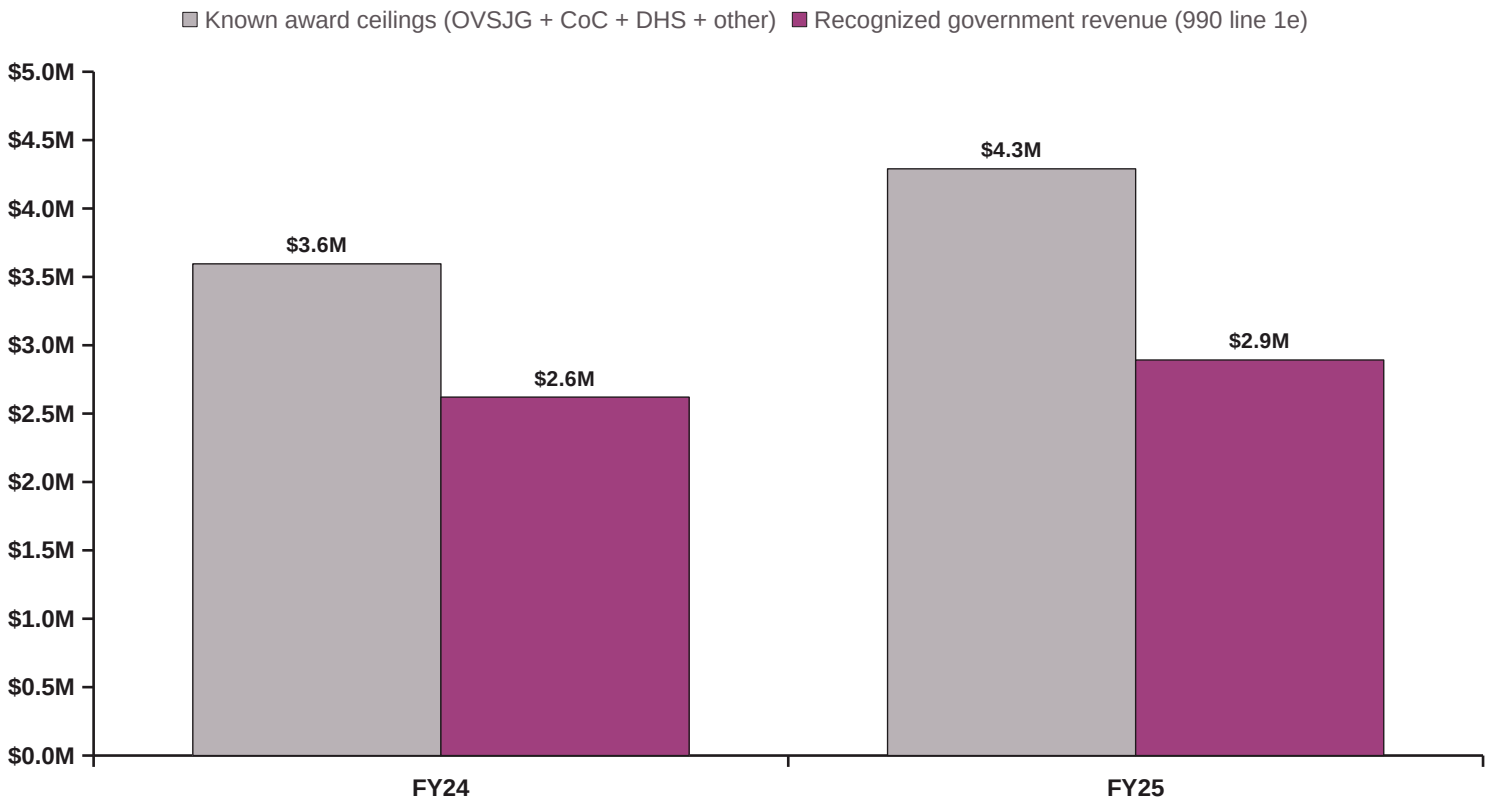

Reading: an OVSJG cut of the size proposed in FY26 costs about $67–100K; a lost DHS/TCP contract costs about $0.65–1.13M, depending on how revenue splits across streams. The net column assumes half of a lost stream's revenue is avoidable cost. Even the baseline burns cash at about $50K a month.

Implication: *protect the TCP-channel contract first, and the OVSJG budget season is survivable with a reserve and a voice in the coalition.*

Source: fact_gov_awards (award ceilings by stream) and fact_org_financials (FY25 990); parameters in config/scenarios.yaml
Method: ranges across three splits of FY25 recognized government revenue (award-ceiling share; CoC at its audited FY22–23 draw rate; without Sisters Rise); a floor case nearly removes the DHS loss
Chart m2_07 · data as of 2026-10-10 · method note A4

Calvary Women's Services
Ending homelessness. Inspiring hope. Transforming lives.

Calvary recognized about two-thirds of its known award ceilings in FY24–25, the first place to look.

A question, not a finding

FY24: $2.62M of $3.6M (73%). FY25: $2.89M of $4.3M (67%).

- Ceilings are awards, not revenue: timing, draw rates and cost-reimbursement limits all lower the figure.
- The audited FY22–23 years already show CoC spending at 28% and 58% of the prior year's CoC awards, so the gap starts in the CoC stream.

The audits would settle the rest.

- Calvary's FY24 and FY25 audits and its TCP subgrant agreements answer this in an afternoon.

Implication: *undrawn awards are the cheapest revenue there is, so reconcile CoC draw-down first, then DHS.*

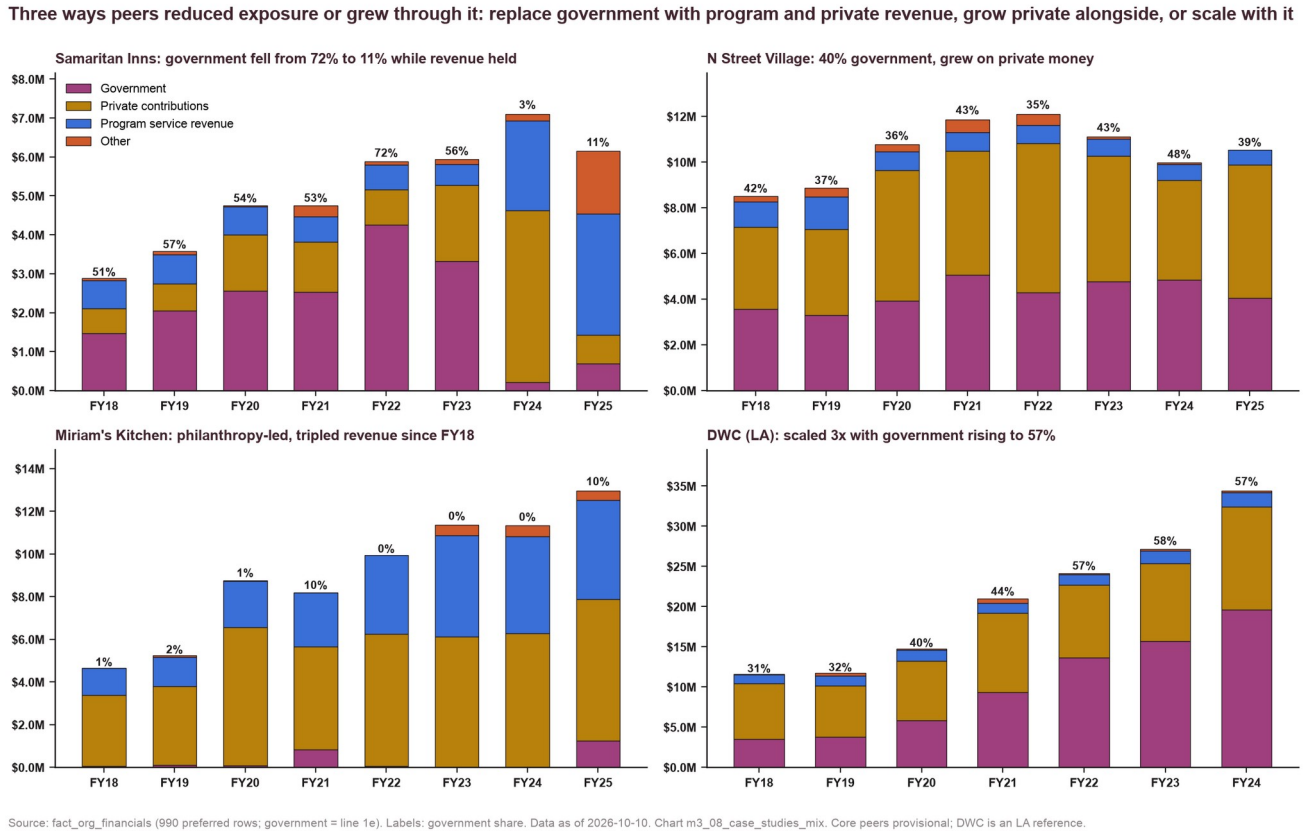

Source: fact_gov_awards aligned to Calvary's fiscal year (DC FY direct; HUD competition year lagged one year; DHS FY2024 carried forward); fact_org_financials
Method: ratio = recognized government revenue ÷ sum of known award ceilings; CoC draw rate = single-audit SEFA expenditure ÷ prior-year CoC awards
Chart m2_02 · data as of 2026-10-10 · method note A5

Calvary Women's Services
Ending homelessness. Inspiring hope. Transforming lives.

What peers show

Organizations with Calvary's profile have grown on more than one model, and the closest fit is to grow private support alongside a stable public base.

Peers show three workable paths, and N Street Village's, growing private support beside a stable public base, fits Calvary best.

Three paths

Samaritan Inns

- Government 72% → 11% while revenue held, replaced by program revenue.

N Street Village

- ~40% government, grew on private money; 8 months of cash.

Miriam's Kitchen

- Philanthropy-led, tripled since FY18.

DWC (LA)

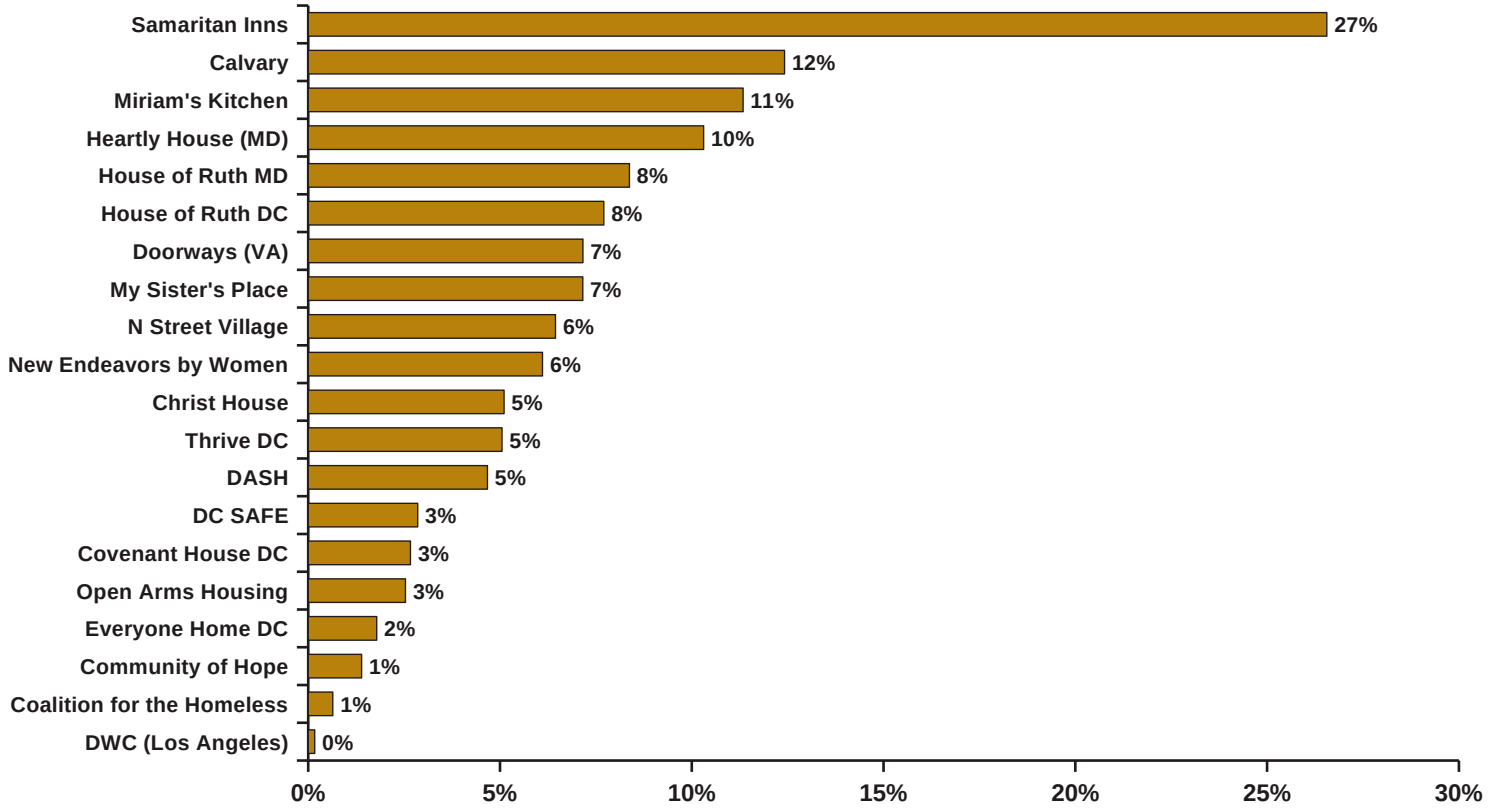

- Scaled 3× since 2018 with government rising to 57%, on 2–3 months of cash.

Implication: *the N Street Village path fits Calvary's model and size, and Samaritan Inns shows the earned-revenue option.*

Source: IRS 990 returns of 18 provisional DC-area peers and 2 Los Angeles comparators, fact_org_financials
Method: government = 990 line 1e; peers chosen for model similarity (config/core_peers.csv, provisional)
Chart m3_08, m3_01 · data as of 2026-10-10 · method note B1

Calvary Women's Services
Ending homelessness. Inspiring hope. Transforming lives.

Calvary already works its foundation funders harder than most peers, so the headroom is deeper grants, donors and earned revenue.

Depth, not count

Calvary: 42 funders; grants equal to 12% of revenue.

- Typical peer 6–8% (N Street Village, House of Ruth DC); only Samaritan Inns (27%) is far ahead.

Donor-advised funds are the gap.

- 25% of Calvary's filed grants vs 51% at N Street Village and 41% at Miriam's Kitchen.

Implication: *more applications have limited headroom, and bigger multi-year grants, a major-gifts program and billable program revenue are the levers.*

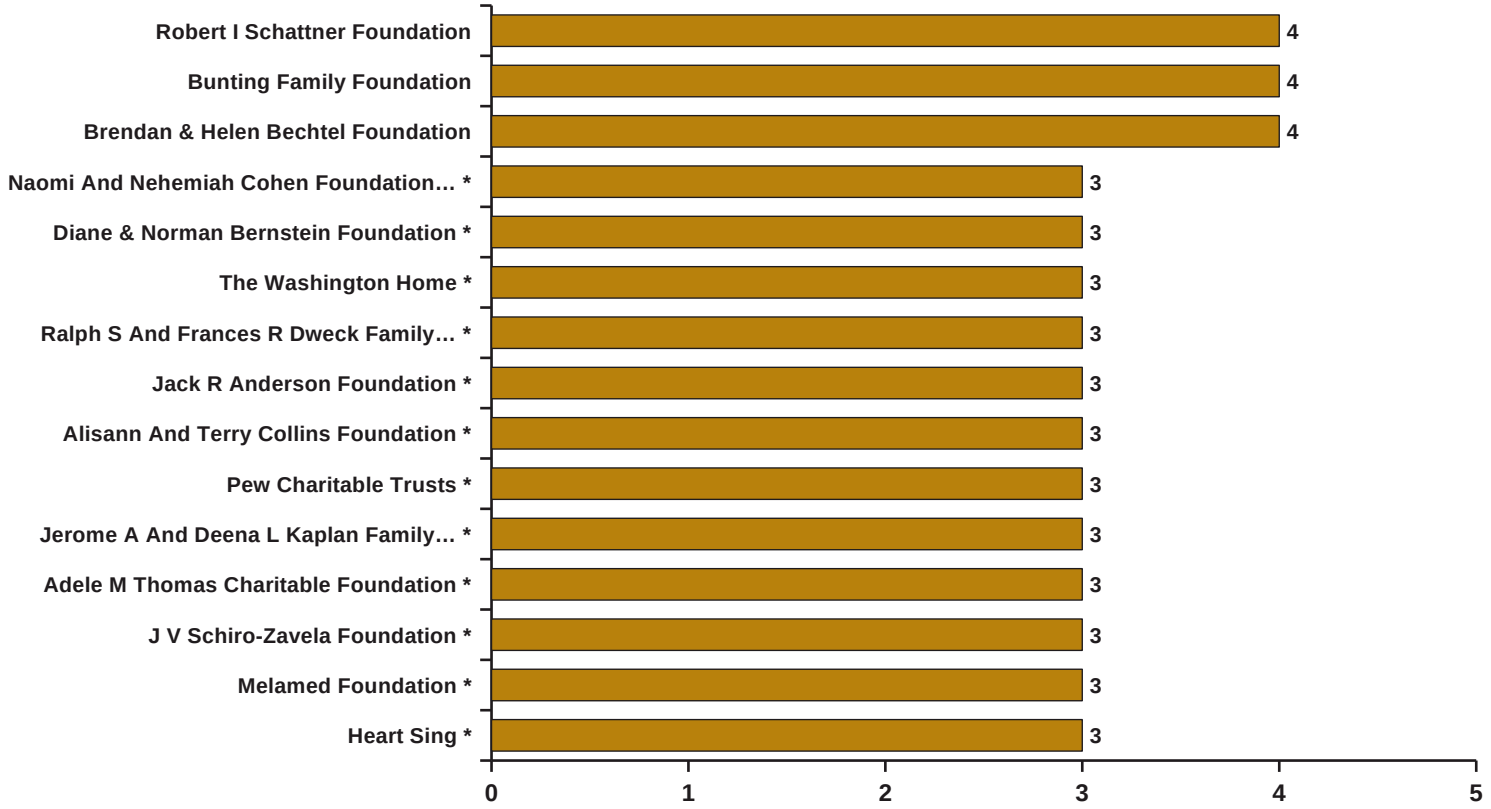

Source: Funders' 990-PF and Schedule I filings TY2020–24 naming each organization (fact_grants, dim_funder); 990 revenue FY2020–24 (fact_org_financials)
Method: institutional = all funder types except DAF sponsors; DMV funders' filings only
Chart m3_06 · data as of 2026-10-10 · method note B2

Calvary Women's Services
Ending homelessness. Inspiring hope. Transforming lives.

Where the opportunities are

The money exists in DC's funder community, and most of it already flows to organizations that share Calvary's funders.

DMV funders give DC's sector $132M a year, and 15 grantmakers already fund three or more of Calvary's peers.

Who already funds Calvary's model

$660M flowed to DC's sector in TY2020–24, 58% via donor-advised funds; Clark's spend-down, now closed, is part of it.

Of the 23 funders of three or more peers, 8 are giving channels or closed.

- Schattner is the one checked target: Tier 1, invitation-only, so the route is an introduction through a peer it funds.
- The others are not yet plan targets: each needs an open-status check and the confirmed peer set (* funds exactly three peers).

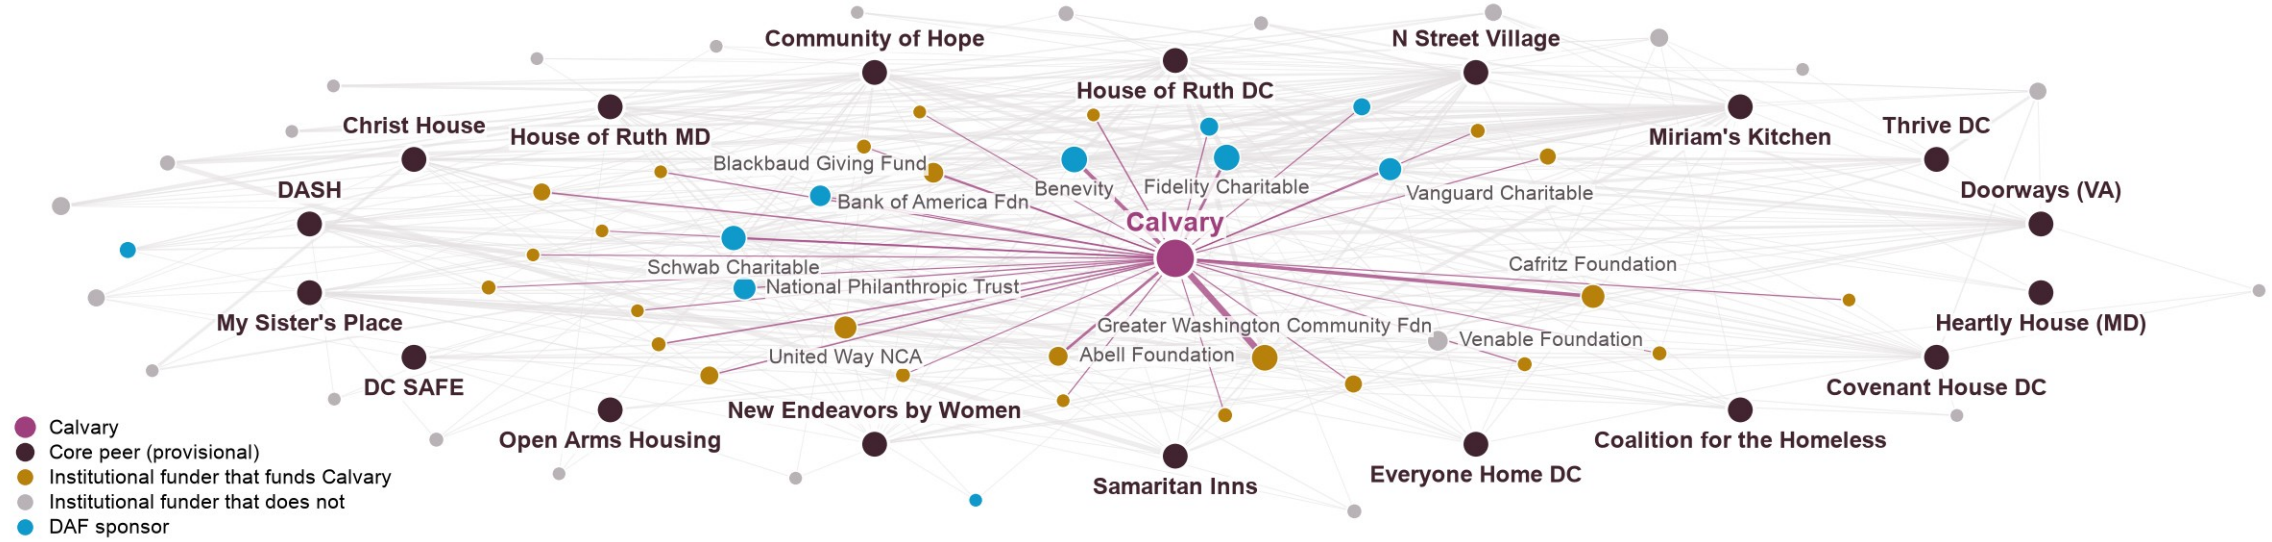

Implication: *these funders already fund Calvary's model, so confirming the peer set and each funder's status is the step before any introduction.*

Source: Funders' 990-PF and Schedule I filings TY2020–24 (fact_grants, dim_funder, dim_universe_membership); landscape exclusions in config/landscape_exclusions.csv
Method: gap = funder names 3+ core peers and no Calvary row in TY2020–24 filings; DAF sponsors, giving channels and closed funders excluded; open status from funders' own pages, Oct 2026
Chart m5_01, m4_01, m7_04 · data as of 2026-10-10 · method note C1

Calvary Women's Services
Ending homelessness. Inspiring hope. Transforming lives.

Calvary sits inside the funder web, so the next funders are one introduction away through peers that share its funders.

Calvary sits inside the same funder web as its peers: the grey nodes are funders one step away, already giving to organizations Calvary shares funders with

Source: fact_grants (990-PF and Schedule I, TY2020-24) naming Calvary and 18 provisional core peers; dim_funder. Funders shown fund 3+ of the 19 organizations (58 funders). Edge width = dollars. Data as of 2026-10-10. Chart m6_03_network.

Closest neighbors

17 shared funders with Miriam's Kitchen; 14 each with DASH and House of Ruth DC.

- House of Ruth DC (69) and House of Ruth MD (81) have the longest lists of funders Calvary lacks.

Board overlaps are thin in public filings.

- No high-confidence board links; introductions run through shared funders and peers.

Implication: *ask the closest peers for introductions to the funders they share with each other but not yet with Calvary.*

Source: fact_grants (funders of Calvary and 18 peers, TY2020–24), fact_org_relationships (board links by person match confidence)
Method: bipartite funder–recipient graph; funders of 3+ organizations shown; board links count as high confidence only with overlapping board terms (none in public filings)

Calvary Women's Services
Ending homelessness. Inspiring hope. Transforming lives.

A plan to consider

Four fronts over 90 days, nine named targets, and two policy choices for the board.

We suggest a 90-day plan to draw every awarded dollar, deepen partners, open doors through peers and grow individual giving.

1. Draw every awarded dollar

Day 30

- Reconcile CoC draw-down first (the audited years show the gap), then DHS
- Confirm the DHS contract and Sisters Rise status with TCP (EHV ends 31 Dec 2026)
- Defend the three CoC renewals in the FY2026 competition

2. Deepen current partners

Day 45–60

- Cafritz and Fowler: multi-year general-operating asks (Cafritz: Mar 1, Jul 1, Nov 1)
- GWCF: a Health Equity Fund successor and core support
- Abell: steward and renew with its staff (invitation-only)

3. Open doors through peers

Day 90

- An introduction to Schattner through a peer it funds, then an invitation
- Meet Jane Bancroft Robinson's staff ahead of its next RFP
- Confirm the peer set before naming other prospects

4. Grow individual giving

Day 60

- Start a named major-gifts and DAF program
- Confirm the FY26 gala date (receipts held near $0.5M)
- Six fundraising staff: two partner conversations a fortnight

Implication: *front 1 costs nothing and may be worth the most, and fronts 2–4 are the private-revenue plan that moves the share toward half.*

Source: recommendations/strategic_recommendations.md, built from modules M1–M7
Method: recommendations are options for Calvary's leadership to weigh, drawn from the evidence in this deck
Chart m7_01 · data as of 2026-10-10

Calvary Women's Services
Ending homelessness. Inspiring hope. Transforming lives.

Nine Tier 1 targets come with a next step, an owner and a deadline.

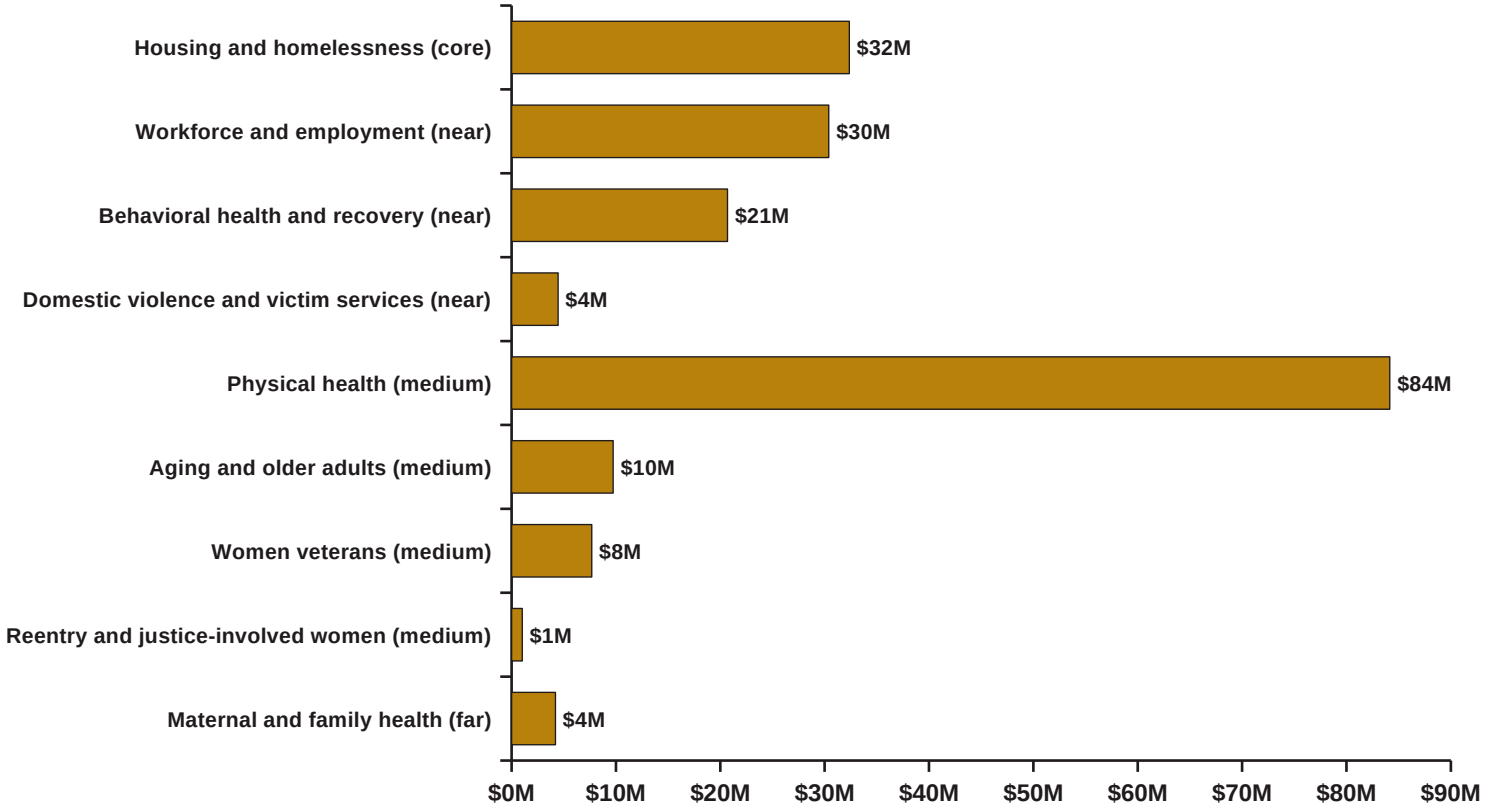

Target	Track	Next step	Owner	By	Open to new requests
William S Abell Foundation	foundation	Steward and renew: Abell gave $270K (TY2021) and $25K (TY2023), with a further $25K in March 2025; it is invitation-only with no consecutive-year requests, so ask its staff when the next request is welcome and what it would fund	Development director	Day 45	Invitation only
Greater Washington Community Foundation	foundation	Two conversations with GWCF: a successor to the Health Equity Fund support, and a core general-operating request	Development director	Day 45	Open: by fund cycle
DC OVSJG Victim Services grants (Reach Up, New Foundations)	DC public	Confirm FY26 award letters and draw-down status; schedule program-officer check-in; map FY27 renewal calendar	CEO + board chair	Day 30	Existing award
Morris And Gwendolyn Cafritz Foundation	foundation	Upgrade ask: request a multi-year general-operating grant at the funder's peer-level amount, citing the FY25 deficit and the concentration in three public streams	Development director	Day 60	Open: March 1, July 1, November 1
HUD Continuum of Care via TCP (Sister Circle, Reach Up, New Foundations 2)	federal public	Confirm FY26 award letters and draw-down status; schedule program-officer check-in; map FY27 renewal calendar	CEO + board chair	Day 30	Existing award
DHS homeless services via TCP (TH contract, Sisters Rise)	DC public	Confirm FY26 award letters and draw-down status; schedule program-officer check-in; map FY27 renewal calendar	CEO + board chair	Day 30	Existing award
John Edward Fowler Memorial Foundation	foundation	Upgrade ask: request a multi-year general-operating grant at the funder's peer-level amount, citing the FY25 deficit and the concentration in three public streams	Development director	Day 60	Open: Rolling
MGAC	corporate	Quantify cash vs in-kind in the CRM; propose a multi-year sponsorship or program partnership	CEO + board chair	Day 60	Existing partner
Robert I Schattner Foundation	foundation	Secure an invitation through a named peer or co-funder (Schattner does not consider unsolicited requests); no LOI	Development director	Day 90 (introduction, then invitation)	Invitation only

Implication: *owners and dates are proposals for the working session, and the scoring weights behind the tiers are editable in one file.*

Source: recommendations/funder_pipeline.csv and action_plan_90day.csv (from fact_grants, dim_funder, fact_org_relationships, the CRM reconciliation and a reviewed web pull of funder guidelines)

Calvary Women's Services
Ending homelessness. Inspiring hope. Transforming lives.

Formalizing workforce and behavioral health opens the largest nearby pools without changing the mission.

Options and trade-offs

Workforce (near): a SheWorks-style cohort inside Step Up DC; the first cost is the second workforce position, unfunded in FY2026.

Behavioral health (near): a credential or billing partner turns therapy into program revenue.

Health (medium): clinic hours with an FQHC partner (Community of Hope is a Ward 8 peer).

- DV formalization raises the public share; families would be a mission change and is not suggested.

Implication: *pick two near options to scope this year, and health is a partnership conversation, not a build.*

Source: fact_grants purpose text tagged with dim_program_area keywords (DMV institutional funders, TY2020–24); fact_opportunities; config/expansion_areas.yaml
Method: dollars whose purpose names the area (general operating excluded, so pools are understated); distance ratings are analyst judgment; education shown in the appendix
Chart m8_01 · data as of 2026-10-10 · method note D1

Calvary Women's Services
Ending homelessness. Inspiring hope. Transforming lives.

A six-month reserve and an annual advocacy calendar would make the spring budget season routine.

Reserve policy

Target six months of expenses, about $2.8M; Calvary holds 4.4 today.

- Peers with Calvary's mix hold more: Doorways 12, Everyone Home DC 10, N Street Village 8; government-anchored DV providers hold about one.
- Treat the Health Equity Fund and other time-limited sources as one-time in the budget.
- Close the FY25 gap in the FY26 budget with the private tracks plus a cost plan.

Advocacy and monitoring calendar

March–July is the season: proposal, markups, vote.

- Mayor's budget March–April (cuts proposed in FY26 and FY27); committee markups May–June; Council vote June–July (restorations).
- Join the coalition testimony that restored the victim-services line twice.
- Track draw-down monthly; watch TCP's DHS purchase orders, FY2026 CoC awards (about December 2026) and the EHV end on 31 December 2026.
- The FY27 OVSJG restoration is mostly one-time, so FY2028 is the next test.

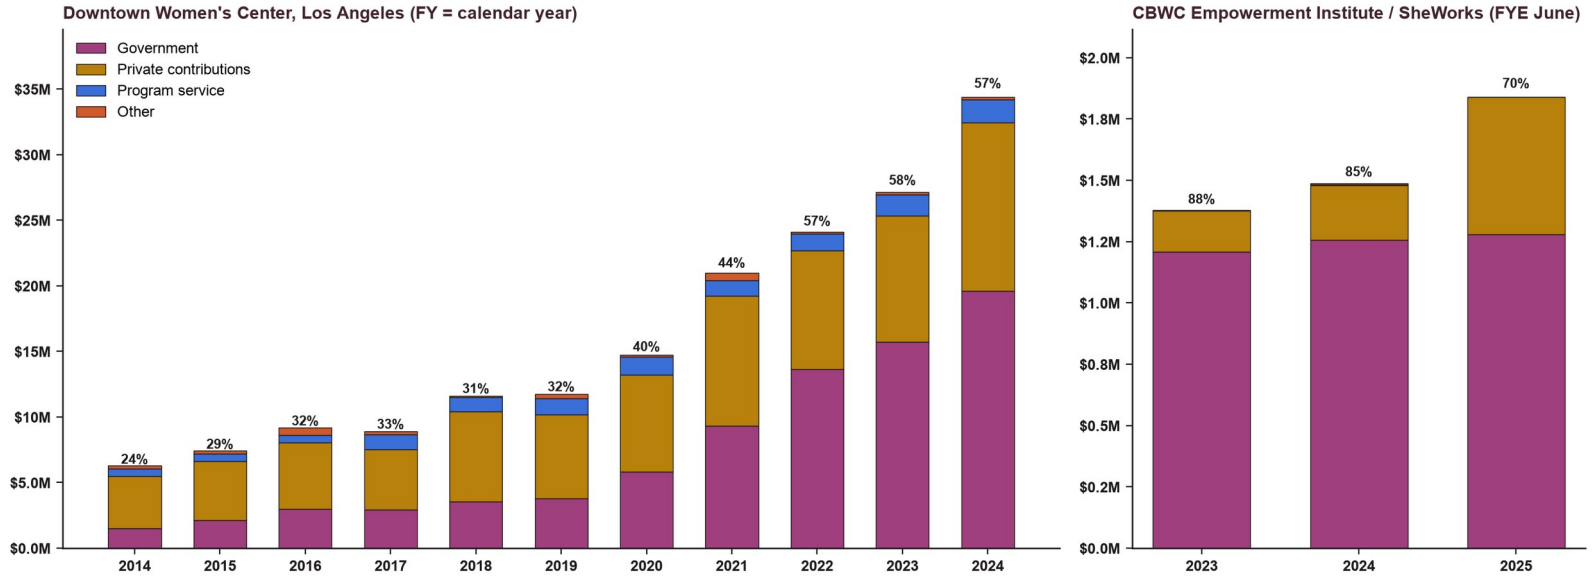

Implication: *two board decisions: adopt a reserve target, and put the advocacy calendar on the board's own calendar.*

Source: fact_org_financials (months of cash, 21 organizations; FY25 expenses), fact_policy_events (DC budget calendar FY2024–FY2027)
Method: months of cash = cash and savings ÷ monthly expenses, FY2024; six-month reserve = FY25 expenses ÷ 2

Calvary Women's Services
Ending homelessness. Inspiring hope. Transforming lives.

The Los Angeles comparators show scale with government (DWC) and a program design to borrow (SheWorks).

DWC grew from $6M to $34M in a decade with government rising to 57% of revenue, while the SheWorks parent started at 88% government and is diversifying fast

Source: fact_org_financials (IRS 990 e-file returns via GivingTuesday / ProPublica / IRS SOI; government = Part VIII line 1e). Labels: government share. Data as of 2026-10-10. Chart m10_01_comparator_trajectories.

What transfers

DWC

- $6M (2014) → $34M (2024), government 24% → 57%, 99% pass-through federal money, 2.4 months of cash.
- Transferable: the PSH pipeline, the clinic partnership, the MADE enterprise.

SheWorks

- Cohort model with stipends, childcare, transport and labor and health-plan partners; a design for Step Up DC, not a funding model.

Implication: *borrow DWC's housing-development and partnership playbook and SheWorks' program design, and do not copy either funding mix.*

Source: IRS 990 returns (fact_org_financials); Federal Audit Clearinghouse single audits (fact_gov_awards); organization web pages and funder announcements (fact_grants web rows)
Method: government = 990 line 1e; DWC fiscal year is the calendar year; CBWC fiscal year ends June

Calvary Women's Services
Ending homelessness. Inspiring hope. Transforming lives.

The FY24–25 audits, the TCP agreements and Calvary's donor-record notes would sharpen every number in this deck.

FY24 and FY25 audited statements

Resolves the ceilings-vs-recognized question (~$1M a year).

- Government revenue on the audit basis for the two latest years
- Whether single audits were filed

TCP subgrant agreements FY2023–FY2026

Resolves the DHS contract values and the Sisters Rise / EHV status.

- Renewal terms for the largest single stream
- Draw-down terms and schedules

Donor-record (CRM) notes

Resolves cash vs in-kind in the corporate relationships (MGAC, Capital One, IMF).

- Lapsed funders' gifts routed through DAFs
- Which recent gifts came from foundations rather than firms

Implication: *with these three documents the government picture rests on Calvary's own numbers rather than on public reconstruction.*

Source: discoveries_log.md (flags D1–D2; D3 resolved from the 990) and open_questions.md part B from the data build
Method: each document maps to a flag raised during the analysis

Calvary Women's Services
Ending homelessness. Inspiring hope. Transforming lives.

The next steps are your reactions, the three documents, and a working session that turns Tier 1 into assignments.

What has been done

- Ten analysis modules on 25 public-record tables
- Verdict, scored pipeline (182 rows), 90-day plan, expansion options
- Every figure traced to a chart-data file and a public source

What comes next

- Week 1: leadership reactions to the framing, targets and options
- Week 2: the three documents
- Week 3: working session to assign Tier 1 owners and dates
- Day 30 / 45 / 60–90 milestones from the action plan

Decisions needed from you

- Adopt (or adjust) the verdict framing and the $3M private-revenue target
- Confirm the Tier 1 list, the peer set and owners
- Pick two expansion options to scope
- Adopt a reserve target and the advocacy calendar

Implication: *nothing here is final until Calvary's team has weighed it, and the consulting team keeps the pipeline and charts current as decisions land.*

Source: recommendations/action_plan_90day.csv
Method: deadlines are relative to the start of the plan
Chart m7_01 · data as of 2026-10-10

Calvary Women's Services
Ending homelessness. Inspiring hope. Transforming lives.

Every figure traces to a chart-data file and a public source, and the consulting and appendix decks carry the methods.

- Consulting deck: 66 slides with every module, method and the complete scored pipeline.
- Appendix A: Calvary and government funding. Appendix B: peers and named comparators. Appendix C: funders, gaps, network and pipeline. Appendix D: data and methods (method notes A1–D3).
- Reports: executive summary, full findings, methodology, recommendations; board talking points and consulting briefing.
- Every chart ID (e.g., m2_02) is a CSV in chart_data/ whose source IDs point to the public documents in the source registry; scoring weights live in config/scoring_weights.yaml.
- Data as of 2026-10-10. Core peers are provisional; FY24–25 government figures rest on the 990 until the audits are shared.
