Government share uses the audit basis where audits exist, because the 990 line understated Calvary's contracts by $1.5M in FY21.

Measure choice

- Audits FY13–FY23 report government contracts and grants together; the 990 line 1e reports government grants only.
- FY21: audit $1.98M vs line 1e $503K (contracts booked in line 1f).
- FY22 and FY23: identical on both measures, so FY24–25 line 1e is treated as audit-equivalent.
- Peers are compared on line 1e, the only measure available for them.

The limitations are known and bounded, from missing FY24–25 audits and one-year DHS values to partial filings and provisional peers.

Limitation	Effect	Mitigation
No public FY24/FY25 audits	Government share for the two latest years rests on 990 line 1e	Line 1e matched audits in FY22–23; ceilings-vs-recognized cross-check (A5); audits requested
DHS/TCP contract values public for FY2024 only	Award base understated in other years; scenario baseline carries FY2024 forward	Flagged in every chart; TCP agreements requested
TY2024 foundation filings partial, TY2025 mostly unfiled	Recent private trends understated	TY2020–23 as the trend window; TY2024 labeled 'arriving'
'See attached' grant lists (667 rows, ~$3.5B DMV-wide)	Some funders' grants have no recipient names	Flagged per funder; accessibility penalty in scoring
Provisional core peers	Ranks move if the set changes	Sector percentiles reported alongside; swap via config

2. Calvary's trajectory

Calvary grew on public partners, private giving held steady, and FY25 ended in deficit with 4.4 months of cash.

Calvary's revenue grew 59% in real terms from FY19 to FY25, and the FY22 spike was a one-time building award.

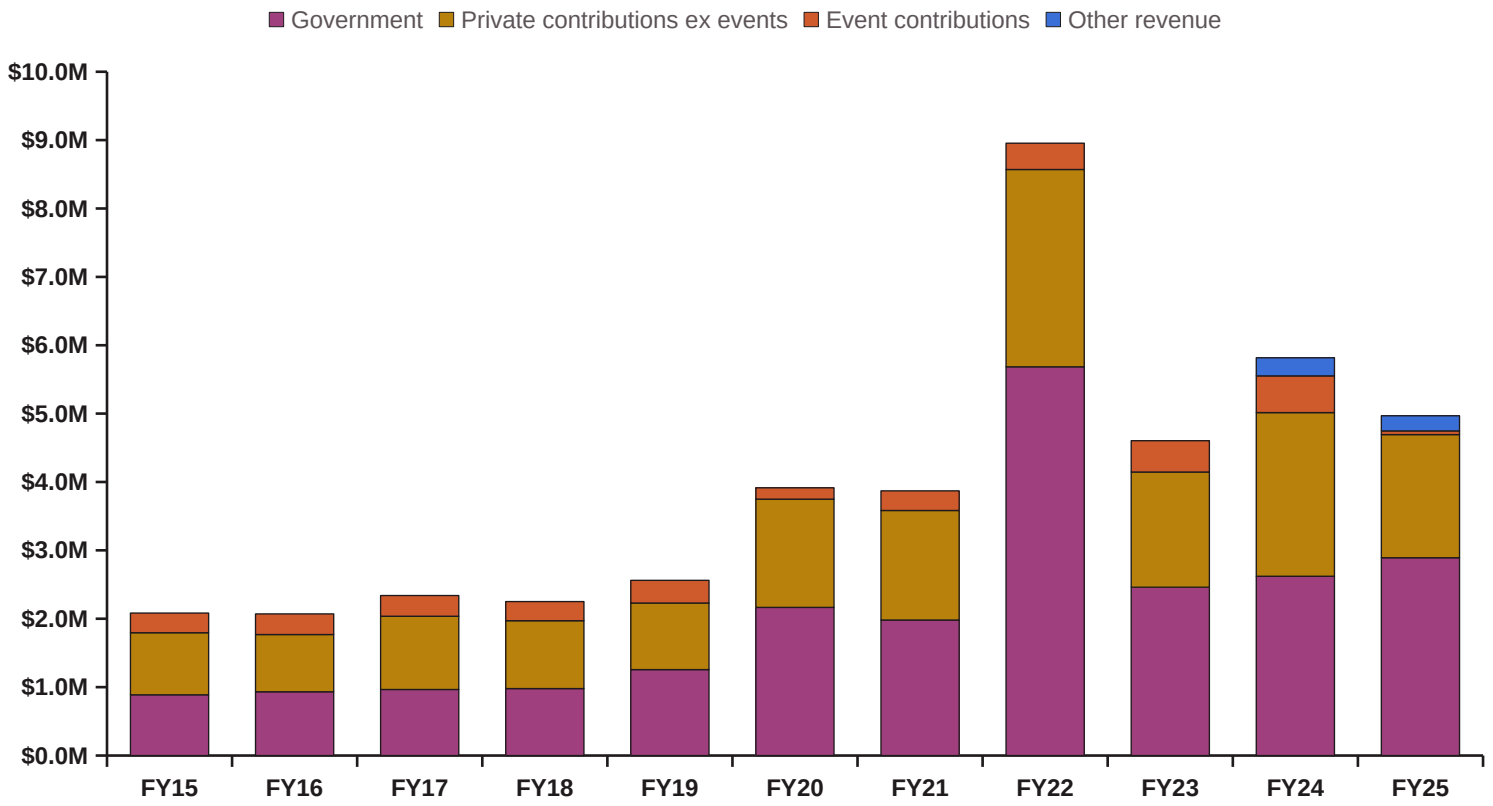

Trajectory

- $1.45M (FY11) → $4.97M (FY25) nominal; $2.49M (FY19) → $4.97M nominal is +59% after inflation ($3.05M → $4.84M in 2024 dollars).
- FY22: $8.87M including the $3.68M SLFRF award that bought the New Foundations building.
- Expenses passed revenue in FY23 and FY25.

3. Government funding

Three streams, one hub, stable pools with annual threats, and a draw-down question.

Calvary's recurring government awards grew from $0.6M (2020) to $4.1M (2024) across OVSJG, HUD CoC and DHS via TCP.

Streams

- OVSJG recurring: $369K (FY20) → $1.05M (FY26).
- HUD CoC: $240K (2019) → $1.77M (FY2025).
- DHS/TCP: $1.42M (FY2024 only).
- One-time: SLFRF $3.68M, PPP $327K, HUD CPF $200K.
- 2019 includes two Reach Up records ($292K and $369K) that may be one award recorded twice, so the series is quoted from 2020.

Seven streams carry different renewal risks, and the DHS contract and Sisters Rise are the least documented and the riskiest.

Stream	First → latest	Funding source	Renewal mechanism	Durability risk
DHS/TCP: Sisters Rise EHV	$593K (2024) → $593K (2024)	DC local funds via TCP, paired with Emergency Housing Vouchers	Annual provider contract (25 units); the project left the HIC in 2025	High: HUD's 29 September 2026 notice ends the EHV program (vouchers convert by 31 December 2026 and cannot be reissued); the 2025 HIC no longer lists Sisters Rise PSH
DHS/TCP: Transitional Housing	$830K (2024) → $830K (2024)	DC local funds via TCP (DHS Homeless Services Continuum)	Annual provider contract via TCP (45 beds)	Medium-high: single public data point; TCP's DHS POs fell sharply in FY2025 after DC's financial-system change
CoC: New Foundations 2	$470K (2023) → $546K (2025)	Federal HUD CoC 14.267 via TCP	Annual renewal; new in 2023	Medium: a young project is the first to go in a tight competition
CoC: Reach Up	$1,222K (2021) → $924K (2025)	Federal HUD CoC 14.267 via TCP	Annual renewal; expanded in 2024	Medium: TCP reallocation cut it from $1.22M to $0.42M in 2022, then it grew to $0.92M
CoC: Sister Circle PSH	$240K (2019) → $297K (2025)	Federal HUD CoC 14.267 via TCP	Annual renewal in the DC CoC competition	Medium-low: PSH renewals are usually protected; FY2025 renewals were paid in full after the NOFO was enjoined, and the FY2026 competition (awards about December 2026) is the live question
OVSJG: New Foundations TH	$439K (2023) → $543K (2026)	DC local funds	Annual OVSJG grant; started FY23 after the FY22 building award	Medium: as above; tied to a DV-designated site
OVSJG: Reach Up TH	$661K (2019) → $508K (2026)	DC local funds (FY24-26 lists); SLFRF-funded in FY22-23	Annual OVSJG grant; continuation funding	Medium: annual, Mayor proposed cuts to Victim Services grants in FY26 and FY27, Council restored both

5. Funder landscape and gaps

The pool is large and concentrated, most majors already fund Calvary, and the gaps are specific and named.

DMV funders put about $132M a year into DC's homelessness and human-services organizations, 58% of it through donor-advised funds.

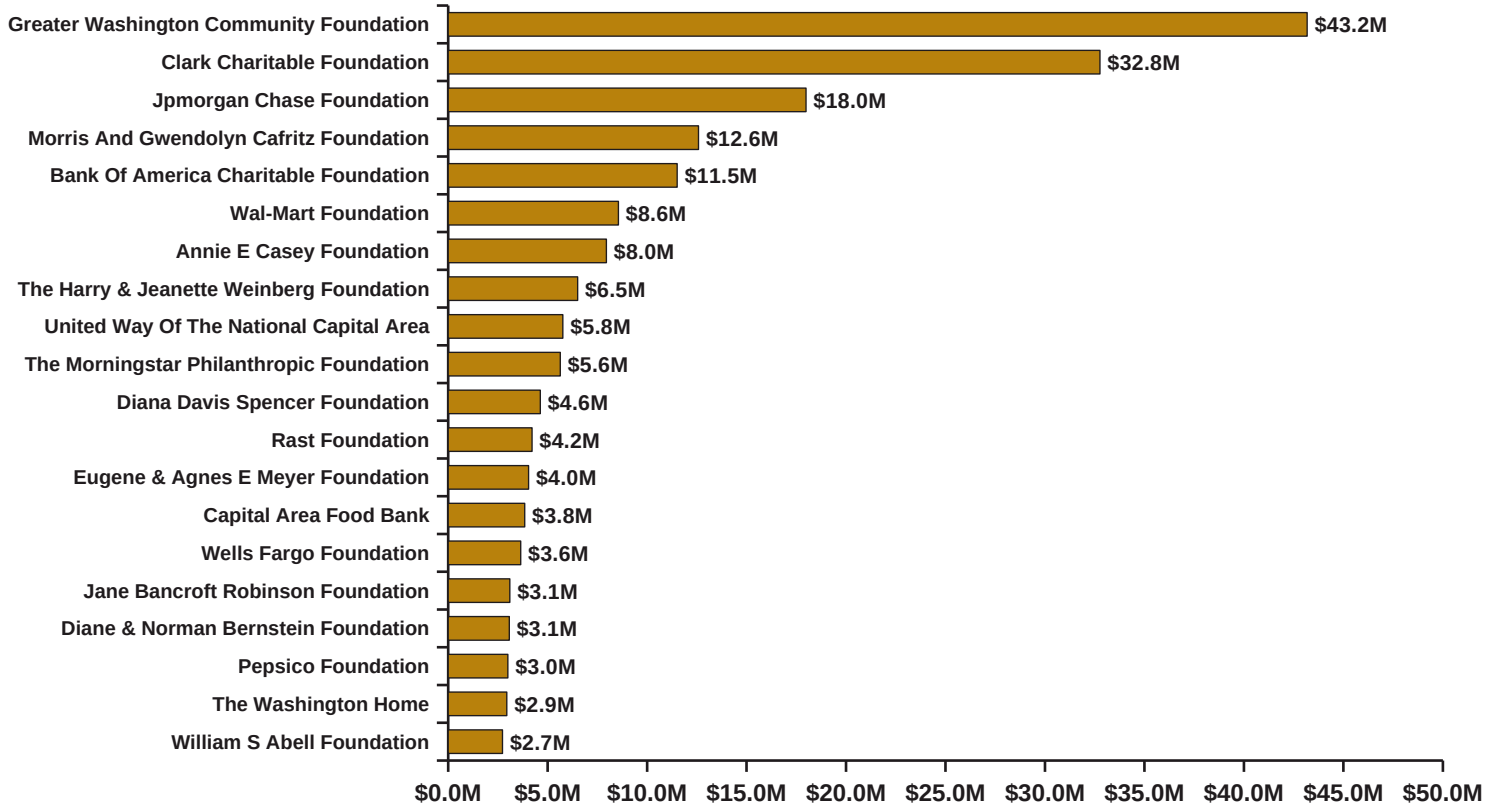

Lens A

- $660M TY2020–24 to 1,027 dc_sector organizations; 555 institutional funders.
- Institutional dollars $50–52M/yr TY2020–23, $72M in TY2024 (partial filings).
- Includes Clark's $32.8M spend-down (closed end of 2025).
- Excludes Gates (global/research recipients) and TCP (a pass-through intermediary with no itemized Schedule I): config/landscape_exclusions.csv.

9. Need and capacity

The city's deepest need meets a shrinking system and a growing share for Calvary.

Calvary's home ward has twice the city's poverty rate and the highest female poverty in DC.

Calvary serves the two wards where poverty is highest: Ward 8 (31%) and Ward 7 (23%) against 15% citywide

10. Named comparators

DWC shows scale with government, and SheWorks shows a program design.

DWC grew from $6M to $34M in a decade as government rose to 57% of revenue, on thin cash.

DWC

- FY2014 $6.3M, 24% government → FY2024 $34.4M, 57%: 5.5x since FY2014 and 3x since FY2018 ($11.6M).
- Federal FY2020–25 $21.6M: CoC $14.3M, ESG $3.5M, VOCA $2.7M; 99% pass-through.
- 159 PSH units; clinic with JWCH; MADE enterprise; Rosa's Place (97 units) under construction.

The SheWorks parent started at 88% government and is diversifying fast, and SheWorks is a program design to borrow.

Item	DWC (Los Angeles)	CBWC Empowerment Institute / SheWorks (Carson, CA)
Revenue, latest	$34.4M (FY2024)	$1.84M (FY2025, FYE June)
Government share	57%	70% (88% in FY2023)
Months of cash	2.4	8.2
Programs	PSH (159 units), community housing, women's health clinic (JWCH), MADE paid transitional work	Black Women's Think Tank, Conversations, Protecting Black Women and Girls; SheWorks cohort (Jan–May 2026, ~30 women; stipends, childcare, ride credits)
Funders in the data	280 names across its two 2023 lists; Hilton $1.53M, Blue Shield of CA Fdn $450K, Ahmanson $325K, Anthem $300K, LA County First District $3M; DMV funders: Bank of America $154K, Wells Fargo $100K	LA County Federation of Labor (partial funding); L.A. 11. Verdict, recommendations and open items

Moderate-to-high pressure comes from concentration and liquidity, with five recommendation areas and two documents requested.

The verdict is moderate-to-high pressure, driven by channel concentration and liquidity rather than by the government share.

53%

Government share FY22–24 mean (58% FY25); 11th of 19 peers; 57th percentile among DC reporters

78%

Share of the $4.1M 2024 award base that passes through TCP (CoC + DHS)

27%

Share of five years of filed grants from one funder (GWCF incl. Health Equity Fund); top five 63%

4.4 mo

Cash at FY25 year-end after a $607K deficit; 7.5 months in FY21

Public funding at about half of revenue is typical for this work. The things to plan around are the shape of that funding (three streams, two through one intermediary), a private base that has held steady from the same funders, and a $607K FY25 deficit that left 4.4 months of cash. DC's pools have held, with cuts proposed and restored each spring; the federal side (the FY2026 CoC competition, the EHV end on 31 December 2026) and the TCP channel are the larger uncertainties.

Five recommendation areas follow: protect and draw the public base, rebuild private revenue, hold a reserve, expand near, mitigate risk.

1. Public base

- Reconcile CoC draw-down first, then DHS
- Confirm DHS / Sisters Rise with TCP
- Defend CoC renewals; scope PSH expansion
- OVSJG budget calendar

2. Private revenue

- Deepen Cafritz and Fowler; GWCF successor and core asks; steward Abell
- An invitation to Schattner through a peer it funds
- Re-engage lapsed; major-gifts/DAF program

3. Reserve

- Six months of expenses (~$2.8M)
- Close the FY25 gap in the FY26 budget
- Treat HEF as one-time

4. Expansion

- Workforce cohort (SheWorks model)
- Behavioral-health credential decision
- FQHC partnership
- DV formalization only with eyes open

5. Risk mitigation

- Direct DHS line alongside TCP; HUD CPF; DHS PSH
- Contract terms; monthly draw tracking
- Advocacy calendar; early-warning indicators

Target arithmetic: private revenue ~$2.1M (FY25) → ~$3.0M in three years (institutional +$0.5M, major donors/DAF +$0.3M, earned +$0.1–0.3M; events held near $0.5M) takes the public share to about 50% at flat public funding.

Two documents from Calvary would resolve the two open flags, and the FY25 990 itself closed the third.

Flag	Finding	Why it matters	Handling (approved CP2)	Document that resolves it
D1	Recognized 67–73% of known award ceilings in FY24–25	~$1M/yr may be undrawn or the DHS carry-forward overstates FY25	Medium confidence; labeled 'ceilings vs recognized'	FY24/FY25 audits; TCP subgrant agreements
D2	Sisters Rise PSH (24 EHV units, $593K) absent from the 2025 HIC	Part of FY25's drop may be a lost stream; baseline may be high	DHS stream 'at risk'; FY2024 value kept in baseline	TCP agreements; Calvary confirmation
D3 (closed)	Event contributions (line 1c) $538K → $55K	The FY25 return reported the gala on line 8a; receipts held at $533K	Reclassified: no event drop	None needed (990 lines 1c + 8a)
